ESRA3 Country Fact Sheet

Version 2 (01/2024)

ESRA (E-Survey of Road Users' Attitudes) is a joint initiative of road safety institutes, research centres, public services, and private sponsors from all over the world. The aim is to collect and analyse comparable data on road safety performance and road safety culture. The ESRA data are used as a basis for a large set of road safety indicators. These provide scientific evidence for policy making at national and international levels. Vias institute in Brussels (Belgium) initiated and coordinates ESRA, in cooperation with ten steering group partners (BAST, DTU, IATSS, ITS, KFV, NTUA, PRP, SWOV, TIRF, University Gustave Eiffel). At the heart of ESRA is a jointly developed questionnaire survey, which is translated into national language versions¹. The themes covered include: self-declared behaviour, attitudes and opinions on unsafe traffic behaviour, enforcement experiences and support for policy measures. The survey addresses different road safety topics (e.g. driving under the influence of alcohol, drugs and medicines, speeding, distraction) and targets car occupants, motorcyclists and moped riders, cyclists, riders of e-scooters and pedestrians.

This fact sheet contains the key results of the ESRA3 survey, which was conducted simultaneously in 39 countries in 2023. In total this online panel survey collected data from more than 37,000 road users (965 in Israel, aged 18-74). The ESRA3 survey in Israel was supported by National Road Safety Authority. An overview of the initiative and more results are available on www.esranet.eu.

The following figures show a core set of variables in which Israel (blue bar ) is compared with the Europe22 ESRA3 mean² (grey bar )

Self-declared behaviour

Over the last 30 days, how often did you ...? (5-point scale from 1=never to 5=(almost) always)

DUI as a car driver

Speeding as a car driver

Distraction & fatigue as a car driver

Seat belt use in a passenger car

* specified based on national regulation; CRS = Child Restraint System

Self-declared behaviour

Over the last 30 days, how often did you ...? (5-point scale from 1=never to 5=(almost) always)

Cyclists

Pedestrians

E-scooter riders

* specified based on national regulation

Sample size**

Road users who use each transport mode at least a few days per month.

Mode of transportation	Israel	Europe22
Car drivers	796	16,900
Car drivers who transported children (<18y) exempt* from using CRS	424	6,110
Car drivers who transported children (<18y) non-exempt* from using CRS	454	6,441
Car passengers	739	15,480
Cyclists	120	10,650
E-scooter riders	50	2,918
Pedestrians	764	19,119

**weighted sample for self-declared behaviours. CRS = Child Restraint System

Personal acceptability

How acceptable do you, personally, feel it is to ...? (5-point scale from 1=unacceptable to 5=acceptable)

Car drivers

DUI

Speeding

Seat belt

Distraction & fatigue

Motorcyclists & moped riders

Cyclists

Pedestrians

Support of policy measure

Do you oppose or support a legal obligation ...? (5-point scale from 1=oppose to 5=support)

Enforcement

On a typical journey, how likely is it that you (as a car driver) will be checked by the police (including camera's or radars) for ...? (7-point scale from 1=very unlikely to 7=very likely)

In the past 12 months, how many times have you been checked by the police for ...?

Infrastructure

How would you rate the roads that you regularly use in terms of safety ...? (7-point scale from 1=very unsafe to 7=very safe)

Car drivers

Motorcyclists & moped riders

Cyclists

Pedestrians

Background Data

Basic data of Israel in relation to the Europe22³ mean.

Exposure	year	Israel
total length of roads (km)	2020	20,239
total length of motorways (km)	2020	6,845
vehicle kilometres (total in millions)	2020	55,121
motorisation rate (motor vehicles/1000 inhab.)	2020	394.0
Source: OECD		

Persons killed in road crashes by age, gender and transport mode				
	Israel		Europe22*	
	absolute number	%	absolute number	%
0-14	27	7.4	398	2.1
15-17	11	3.0	424	2.3
18-24	75	20.6	2,361	12.7
25-49	119	32.7	6,166	33.2
50-64	54	14.8	3,969	21.4
≥65	75	20.6	5,122	27.6
unknown age	3	0.8	112	0.6
male	282	77.5	14,529	78.3
female	79	21.7	3,990	21.5
unknown gender	3	0.8	33	0.2
car (including taxi)	125	34.3	7,349	43.7
moped	5	1.4	464	2.8
motorcycle	81	22.3	3,103	18.5
bicycle	23	6.3	1,640	9.8
pedestrian	98	26.9	2,814	16.7
other	32	8.8	1,437	8.6
TOTAL	364	100.0		100.0
fatalities per 1,000,000 inhab.	38.9		39.1	
Data of Israel from 2021. Europe22* based on the most recent data available by country. Due to missing data not included in mean for gender and age: Bosnia and Herzegovina; for transport modes moped and motorcyclists also Ireland, United Kingdom. The mean for 'fatalities per 1,000,000 inhab.' includes all countries. Source: CARE database ; WHO (2018)				

Population			
	year	Israel	Europe22
population	2021	9,364,000	482,386,787
density (inhab./km ²)	2021	432.7	128.0
males (% of total)	2021	49.9	49.0
females (% of total)	2021	50.1	51.0
urban (% of total)	2021	92.7	77.3
internet users (per 100 people)	2021	90.3	88.5

Traffic legislation in Israel	
Speed limits for passenger cars:	(km/h)
motorways	110
rural roads	80
urban roads	50
Drink-driving:	BAC limits (g/l)
max. BAC for drivers	0.50
max. BAC for young/novice drivers	0.10
max. BAC for professional drivers	0.10
Existence of drug-driving law	Yes
Protective systems:	
obligation to use seatbelt in front seat	Yes
obligation to use seatbelt in rear seat	Yes
obligation to use child restraint systems for transport of children	Yes
obligation to use a helmet as a motorcyclist	Yes
Prohibition to use mobile phone while driving (hand-held)	Yes

¹ Please note that this country fact sheet has been written in British English. Exact wording of items and spelling was adapted according to the needs of the national language versions of the ESRA3 survey.

² The Europe22 ESRA3 mean is based on the results of the 22 European countries participating in the ESRA3 survey: Austria, Belgium, Bosnia and Herzegovina, Czech Republic, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Latvia, Luxembourg, Netherlands, Poland, Portugal, Republic of Serbia, Slovenia, Spain, Sweden, Switzerland, United Kingdom.

³ The Europe22 mean used in the background data is based on the national data of the 22 European countries participating in the ESRA3 survey (for countries see footnote 2 above).

The ESRA3 survey in Israel was supported by National Road Safety Authority.
